Feature Scope Description for SAP Signavio Process Explorer

SAP Signavio Process Explorer

SAP Signavio Process Explorer is a gateway to access and explore value accelerators and resources that speed up time to value.

Feature	Description
Business capability and solutions maps	Business capability and solution maps define what the enterprise does and provide supporting solutions.
Solution-independent business process models	Business process models showcase the sequential steps, events, tasks, and roles of a process. The process models work as foundational templates when transforming an existing process or when introducing a new business model.
Industry-specific value accelerators	Industry-specific value accelerators for a range of industries, including process models as well as associated metrics and innovation recommendations for selected scenarios.
Metrics and innovation recommendations mapped to process models	For selected scenarios, metrics are mapped to process models to support a continuous improvement journey.
SAP product best practices and recommendations	Collection of practices and models specifically dedicated to the SAP portfolio.

Important Disclaimers and Legal Information

Beta and Other Experimental Features

Experimental features are not part of the officially delivered scope that SAP guarantees for future releases. This means that experimental features may be changed by SAP at any time for any reason without notice. Experimental features are not for productive use. You may not demonstrate, test, examine, evaluate or otherwise use the experimental features in a live operating environment or with data that has not been sufficiently backed up.

The purpose of experimental features is to get feedback early on, allowing customers and partners to influence the future product accordingly. By providing your feedback (e.g. in the SAP Community), you accept that intellectual property rights of the contributions or derivative works shall remain the exclusive property of SAP.

Bias-Free Language

SAP supports a culture of diversity and inclusion. Whenever possible, we use unbiased language in our documentation to refer to people of all cultures, ethnicities, genders, and abilities.
